HONGKONG, DECEMBER 13TH, 1880. A good sample of the misrepresentations of facts relative to this Colony that find currency in some of the home papers is to be found in the extract given in another column from the Dublin Freeman's Journal. That print, with a profound sympathy for every person of Hibernian origin, is evidently - prepared to laud and magnify any Irishman in a public capacity. There can be no earthly objection to the glorification by an Irish journalist of a fellow countryman who has achieved notoriety if not distinction, so long as the adulatory writer keeps within the bounds of truth. When, however, the praise of Governor Hennessy is made the occasion for the publication of a gross libel on the community over which he has the great honour to preside, it is only right that some no- both sides of the rooms, leaded with a profusion. tice should be taken of the slander. Who told the Dublin paper that a system " had grown up in Hongkong of dealing with Chinese criminals in a Mrs. Noronha, who supervised the sale of an exspirit of savage cruelty?" This is a falsehood pure and simple. The employment of flog- Mrs. Jonnings and Mrs. MacEwen, who had ging and branding was found necessary to keep in check the hordes of desperate criminals that have, ever since the foundation of the salves, who devoted her attention to the disposal Colony, invaded it from Kwangtung. No cruelty was used; merely necessary severity. We have no patience with the maudlin sentimentality that thinks more of the sufferings of a hardened criminal than of the trouble and loss and misery he unhesitatingly in this room was presented by various firms, inflicts upon society. It has been found essential in the United Kingdom, for the amongst other bings, two large photographs protection of the public and especially of of Hongkong, with a great number of smaller females, to have recourse to the lash in cases of crimes of violence. DESTRUCTIVE FIRE AT YOKOHAM. Yokohama has again been the scene of one of those disastrous conflagrations which periodically. A body of five hundred soldiers left this port | destroy much valuable property in the settlement, About a quarter to ten o'clock p.m. on A second reunion of the season is to take place | the 1st instant, the bells gave the alarm of fire, and the darkness of the night soon enabled the spot to be singled out. There appears to be no doubt of the fire having originated on the promises of Messrs. Van Lissa Brothers, No. 66, Main-street, but how is as yet unknown. One of the members of this firm said that he had not the slightest idea of the cause of the fire. The first intimation of the presence of fire in the house was the andden extinguishing of the gas. Upon opening a door to ascertain the cause of this unusual phenomena, Messes: Van Lissa disgovered that the house was full of smoke. Retreat by the stairs was cut off. One of the gentlemen got on the roof of the house and remained in that uncomfortable and danger. ous position for nearly half an hour before he was rescued. His brother groped about in the darkness and succepted in finding a long piece of rope, one end of which he made fast tosomething strong, and, throwing the coil out of the window, descended hand over hand to the ground. However, it was not very long before the building was gutted, and the flames as they leapt sportingly from the windows gave some

conception of the vast heat which was consuming

the interior with all its valuable scientific instru-

ments. Within twenty minutes after the alarm was given the balcony of the row of buildings on lot 86, opnosito Messes. Van Liusa's, esught fire, and it was soon apparent that they were doomed. The scene was indescribable, and the confusion and utter want of discipline and order was as notorious as at other fires. Japanese were rushing about with articles of all description, apparently under no control, bewildered, not knowing where to take the burdens which had been hustily thrust into their hands. Engines were arriving to find that the tide was out, scarcely any water in the creek or anywhere else. Wells and tanks were soon sought, out and olmost as speedily sucked dry. And thought we are disposed to give Japanese firemen all the credit they deserve for their courses and perseverance, yet it is deplerable to witness the utter want of discrimination in the use of that most valuable article, water at a fire; and the fact was most patent that a directing head is as essential it a fire as in a battle. At every conflagration which has occurred in Yokohama for years past there has been a lamentable waste of energy and water, and the fire of the 1st instant was not anexception. Indeed, there is no question that the real cause of the live not spreading much further than it did was due to the two steam fire engines, Rollief and Victoria, which were stationed at the creek, and the exections of a few foreigners who kept their wits about them and want to work syst aquatically. That Mesers, Polil Frèces and Dr. Eldridge were not burnt ent is due-entirely to the preiseworthy efforts of Mr. Smith, of the International Hotel, Mr. Samuels, Mr. Churchill, and a gentleman whose name we are unacquainted with, but who was conspiengus by his coolness and intropidity; while Messrs, Pagdon, Kildoylo, Glonnie, Dr. Wheeler and others worked with a right good will-in another direction. With he enforced assistance ha few Januarise, these gentlemen manially battled with the flames. Buckets of water were passed from one to another, and the roof Messrs. Pohl Fréres was thus kept completely saturated. Still it seemed as if all efforts would prove useless, when, at the critical moment, up came Mr. Favre-Braudt with his little hand engine and

half-a-dozen men. The hose was immediately thrust into a large barrel of rain water, and a steady stream soon began to play mon the buildings in danger, and those who had worked so hard felt thankful at the timely relief. Foote's Hotel was also in danger. Three or four times the cave of the roof saught fire, but the cool and determined efforts of two or three foreignors saved the building. The fire soon spread from where it originated to Messrs. Prott. Bird & Co. next door, and there. t found material to feed it for a considerable time. The heat was intense. On the opposite side of the road the flame; spread so rapidly from house to house that the inmates had enough to do to escape with their lives. Mr. Mose's farmiture store stood the test wenderfully well. The flames leapt around it, falling flakes of fire alighted on the roof as thick as hail, but it was sound and fortunately arrested the course of the flames in that direction, atherwise nothing could have saved the Temperance Hall, which was in great danger for some time. Mrs. Vincent's

drapery store stood for a while, but eventually succumbed. However, the fire got no further in Vun Lissa's the tea-firing godowns of Messrs. Strachan & Co. proved a barrier, and at some time but at last caught fire. There had been powder stored in this godown, which fotunately, was thoughtfully removed as soon after the fire broke out as possible. Still, there were a number of cartridges remaining which caused some uneasiness when they began to go off as rapidly as so many Chinese crackers. A after the fire commenced. Dr. Wheeler (who is always foremost when there is danger), the mate of a ship and a sailor were in the upper story they could when the explosion took place. The room they were in was instantly filled with smoke. and the mate and sailor both leaded from the upper story to the ground, despite the remonstrances of the doctor, who retained his presence of mind and quietly wended his way downstairs, to

count for the explosion referred to; though it is thought possible that there may have been a canister thrown away as empty which might have had a small quantity of powder left in it, or it may have been an explosion of gas. Detachments from the various men-of-war were lauded, some armed, but though willing, were not able to render any great assistance. One honest Jack, who lost his comrades somehow. undertook to command a number of Japanese, but this directions were more forcible than intelligible. A German or Russian warrior, getting impatient with a Japanese who persistently got

safer quarters. We are assured by Messrs. Van

Bird's drapery store, and occupied by several families, Mrs. Vincent's store and a house occupied by Mr. des Remedies. situate on lot No. 86, between the Temperance November, 1860. He became a member of the Hall and Captain Christensen's, which caught Yamen of Foreign Affairs, but retired in month- fire through some falling sparks. That the conin June, 1878. We now learn that he has been flugration was confined to those buildings is hiefly attributable to the causes we have referred to and there being no more wind than the fire croated. We regret to learn that a Japanese fireman of the Victoria engine lost his life. He was standing near the debris when a wall fell and in-

> COMPETITIVE, EXPLORATION. The Times finds one great consolation amid

all the troubles of an age which has its full share. at our schools and colleges, trained in physical and intellectual exercises, much better fed than in the days of Spartan discipline some of us may remember and impressed with the ambition to be foremost in every race, and to excel in whatof the 26th ult., the fire-bells rang, and Wichi- ever they do. But what is there to do that all godowns were totally destroyed before the fire expected. France has been exploring the narrow streets, and one hundred and thirty people with what results time only can show. There fortunates were unable to effect an escape from as our own. We have latterly thought the game the burning houses and lest their lives, perishing hardly worth the candle. But a universal Risorably in the flames within sight of the competition and, what is more, the irrepresspectators, who were utterly powerless to rescue sible zeal of our own countrymen draw us on. The United States, Germany, Austria, Sweden, leaving Russia content to explore her own coasts,

shipped at Point de Galle; Tea and General REGULATIONS AS TO SOLDIERS' AND SAILORS' 1.—Privates in H.M. Army or Navy. Noncommissioned Officers, Army Schoolmasters

(not Superintending or First Class) or Schoolmistresses may send half-ounce letters to the United Kingdom via Brindisi or via Naples at the rate of four conts (twopence) each, which may be prepaid either in Imperial or in Hongkong Stamps. 2.—The same privileges apply to letters addressed to the Privates and Non-commissioned

Officers named above. 3.—All such letters prepaid at the rate of two cents (one penny) will be forwarded to or from the United Kingdom by private steamer and not by the mail packets. 4.—Private steamers leave Hongkong for London about every ton days, and are from six

to seven weeks on the voyage. 5.—The letters must not exceed half an ounce. No handkerchiefs, jewellery, &c., can be sent, even with the ends open. 6.-If from a Soldier or Sailor his class and description must be stated in full on the letter, the cover of which must be signed by the Commanding Officer, with name of regiment, ship

&c., in full. 7.—If to a Soldier or Sailor, his class and description, with name of regiment, ship, &c., must be stated in full. 8.—Soldiers and Sailors have no privileges with regard to books or papers, nor can these be

prepaid with Imperial Stomps. * But not Warrant Officers, viz.:-Assistant Eagineer, Gunner, Boatswain, or Carpenter. To provide means of remitting small sums

of money to or from this Colony and between the Ports of China, the Postmasters and Agents of this Office are allowed (but not required) to purchase Hongkong Postage Stamps from foreign residents. The Stamps tendered for sale must not ex-

coed \$50 in value, must be perfectly clean, in good condition, and in strips of at least two, as no separate Stamps will be purchased. They must be presented personally or accompanied by a note. Letters containing Stamps should be regis-

tored, and the Stamps should be secured from observation.

Many boxes of letters are received at the Post Office not sealed, that is to say, the box is fastened with scaling war, but there is no impression of a seal. The attention of boxholders is called to the necessity of carefully sealing such boxes with some recognisable seal, and of sending a chitbook or receipt with them. The omission of the latter precaution leaves a doubt as to whether the contents of the box ever reached the Post Office; the omission of the former, as to whether part of them might not have been abstracted for the sake of the Postage Stamps.

LETTERS FOR THE UNITED STATES BY SAILING When it is desired to forward letters to the United States by a sailing ship which is not no-

tified as carrying a mail, it is only necessary to: post the letters in the ordinary way, marked with the name of the ship, and prepaid 8 cents per balf ounce as usual. The Post Office then undertakes the duty of obtaining notice of departure and despatching the correspondence. It is requested that the letters be posted if possible at least one day before the date fixed for sailing

AND INTERCOLONIAL MONEY ORDERS. 1.—The Post Office of Hongkong issues Money Orders on the Empire of Japan, New South Wales, Queensland, South Australia and Port Darwin, the Straits Settlements, and Western Australia. 2.-Money Orders may also be obtained at the British Post Office, Shanghai, on any of the

above places except Japan. 3.—The exchange of Local Money Orders Letween Hongkong and Shanghai continues as heretofore, subject to the rates laid down in the next paragraph. 4.—The Commission to be charged for all Money Orders named above is follows :---/ For a sum not exceeding £5 or \$25... 25 Cents. From 25 to £10, or \$25 to \$50. 50 Cents. 5.—No Order must exceed £10 or \$50 nor

will more than two such Orders be issued to the FAVOURABLE COMPARISON same person, in favour of the same payer, by the same mail. 6.—Sums not exceeding \$50 may be remitted between the other Ports of China by means of Postage Stemps, subject to a charge of lone per cent for cashing them
